

New Outlook Academy Health and Safety Plan Guidance

New Outlook Academy will maintain the health and safety of students, educator, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC:

a. Universal and correct wearing of [masks](#)

- New Outlook Academy will continue to monitor the recommendations from the recommendations as necessary.
- Given new evidence on the B.1.617.2 (Delta) variant, New Outlook Academy is following the updated CDC guidance for fully vaccinated people; CDC recommends universal indoor masking for all teachers, staff, students, and visitors to K-12 schools, regardless of vaccination status.

b. Modifying facilities to allow for [physical distancing](#) (e.g., use of

- New Outlook Academy will continue to monitor the recommendations from the CDC, PADOH, and PDE and regarding social distancing and make recommendations as necessary.
- According to the current CDC guidelines, classrooms will be modified to allow 3 feet social distancing between students and 6 feet between adults where feasible.
- Axillary areas may be used for lunch where it may be difficult to maintain social distancing.
- Cohorting will be implemented wherever possible to limit exposure to large groups of students.

c. [Handwashing and respiratory etiquette](#)

STAFF AND STUDENT HYGIENE PROTOCOLS AND PROCEDURES

The following procedures have been routinely communicated to our staff and students and are updated as per CDC and DHS guidance as needed.

Wash hands frequently with soap and water for at least 20 seconds. Video instruction has been provided to all staff and students regarding the proper procedure for hand washing.

Avoid touching face, eyes, mouth and nose. Video instruction indicating the importance of avoiding touching these areas has also been provided to all staff and students.

Stay home when you are sick.

Cover your cough or sneeze with a tissue, then immediately discard the tissue in the trash. Wash and or sanitize hands.

Clean and sanitize frequently touched objects and surfaces.

Maintain social distance of six feet in all possible situations. To facilitate social distancing, students reside in single or double occupancy bedrooms with beds at least six feet apart. Classroom sizes have been reduced to no more than ten students. The number of students at each cafeteria table is also restricted.

Increased cleaning and disinfecting is occurring throughout all areas of the schools on a scheduled basis each day.

Daily temperature screens for all students and staff members.

Educational videos on hygiene and safety protocols are provided.

Staff members are required to wear a face mask at all times on campus except during meals. New Outlook provides masks to staff members who do not have their own.

Additional PPE including gloves, gowns, KN-95 masks, N-95 masks, face shields and goggles are available for staff based on their work area in relation to potential exposure to potential and positive cases of COVID-19.

d. [Cleaning](#) and maintaining healthy facilities, including improving [ventilation](#)

Change mop after each use and after cleaning blood and bodily fluid spills

Remove Personal Protective Equipment (PPE) before leaving the unit, including gloves

NEW STUDENT INTAKE PROCEDURES

Before arriving on campus, a student must be cleared by medical staff according to our screening policy.

Upon arrival, all new students will be escorted directly to the Orientation Program. The Orientation Program is a separate unit used for only these students.

Each student will be assigned a bedroom in the Orientation Unit.

Each student will be provided with a minimum of two COVID-19-approved masks.

Each student will watch four COVID-19 prevention videos.

Staff members will take the temperature of all students in this unit at least once a day.

If a student presents with or verbalizes any signs of illness or has any known exposure to a positive COVID-19 case, staff members will immediately call the medical department for an evaluation.

If the medical staff deems necessary, the student will be transferred to a designated infirmary or quarantine area. If a student in the Orientation Unit exhibits symptoms consistent with COVID-19, the 14-day orientation period may be extended for some or all of the students impacted. Additionally, the medical department will consult with our school physician to determine if further treatment and/or testing are required. The quarantine cycle will continue until a student is symptom-free for a full 14 days.

Our medical department will conduct COVID-19 surveillance testing on all consenting students, as well as a medical assessment before transferring any Orientation students to the inpatient drug and alcohol or general residential program.

SEVERE RESPIRATORY ILLNESS SEPARATION POLICY

This plan is implemented for any student who displays flu-like symptoms, including a fever over 100.0° F.

1. The student will be immediately removed from the general population and moved to the designated area for separation.
2. The student will be required to wear an appropriate protective mask and will be encouraged to continue to wash hands several times a day.
3. Our staff will sanitize the assigned room based on the CDC recommendations and our sanitation procedures.
4. All meals will be brought to the student and will be eaten in the assigned room.
5. Employees working with the student will be required to wear appropriate personal protective equipment.

Our medical staff will manage treatment for any students being cared for under the Separation Policy for severe respiratory illness under the direction of our school physician, including referrals for testing of influenza or COVID-19. If the student is referred for either test, she will remain in separation protocol pending the results of testing and further direction from the medical practitioner.

When a student tests positive for COVID-19, it will be determined, in coordination with treating medical professionals, if the student requires inpatient treatment, placement in a county healing facility for COVID-19 patients or can be returned to campus to remain in under Separation Protocol in the Isolation Unit. New Outlook Academy will also immediately communicate with the student's placing agency, parent/guardian and the Department of Human Services. The Department of Health will receive the information from the testing facility. Weekly updates regarding COVID-19 are sent to New Outlook Academy stakeholders.

f. Diagnostic and

- Our medical staff will manage treatment for any students being cared for under the Separation Policy for severe respiratory illness under the direction of our school physician, including referrals for testing of influenza or COVID-19. If the student is referred for either test, she will remain in separation protocol pending the results of testing and further direction from the medical practitioner.
- When a student tests positive for COVID-19, it will be determined, in coordination with treating medical professionals, if the student requires inpatient treatment, placement in a county healing facility for COVID-19 patients or can be returned to campus to remain in under Separation Protocol in the Isolation Unit.
- New Outlook Academy will also immediately communicate with the student's placing agency, parent/guardian and the Department of Human Services. The Department of Health will receive the information from the testing facility. Weekly updates regarding COVID-19 are sent to New Outlook Academy stakeholders.

g. Efforts to provide COVID-19 vaccinations to school communities

- New Outlook Academy facilitated the scheduling of COVID-19 vaccination appointments through the county Department of Health for all interested staff members as qualified within the 1A phase of vaccine administration in Pennsylvania. Now that vaccines are readily available to all adults, we continue to provide assistance to any staff member seeking the vaccine.
- New Outlook Academy also provides access to the vaccine for any student who is interested and has parental consent.

h. Appropriate accommodations for children with disabilities with respect to health and and

- New Outlook Academy will ensure that any of the policies or parts of the Health
